PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, interactive web interfaces using React, JavaScript, TypeScript, GSAP, Three.js, and Svelte. Specializes in animation-driven landing pages, portfolio websites, and modern UI/UX experiences. Focused on reusable component-based development, responsive design, web accessibility, and frontend performance optimization.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, TypeScript

Frontend: React, Svelte, Tailwind CSS, Recoil

Animation & Interactive UI: GSAP, Three.js, Anime.js, Barba.js, Locomotive Scroll, Shery.js

Core Competencies: Responsive Web Design, Component-Based Development, Landing Page Development, Portfolio Websites, Website Redesign, Frontend Animation, UI/UX Implementation, Web Accessibility, Performance Optimization

SELECTED PROJECTS

Obys Agency Clone

Technologies: React, HTML, CSS, JavaScript, GSAP, Locomotive Scroll, Shery.js

- Developed a responsive, animation-focused agency website inspired by the Obys design style.
- Implemented scroll-triggered transitions, smooth scrolling, interactive visual effects, and modern landing-page sections.
- Focused on polished UI behavior, responsive layouts, and an engaging user experience.

ThirtySixStudio

Technologies: HTML, CSS, JavaScript, React, Tailwind CSS, GSAP

- Created a curated collection of frontend experiments, creative animations, and UI/UX code snippets.
- Built reusable interface sections and responsive layouts to showcase modern frontend implementation techniques.
- Applied animation and interaction patterns to improve visual hierarchy and user engagement.

SELECTED PROJECTS (CONTINUED)

AROCKdesign

Technologies: React, GSAP, Recoil, HTML, CSS, JavaScript

- Built an interactive React website with component-based architecture and animation-driven user interactions.
- Used Recoil for lightweight client-side state management and GSAP for seamless transitions.
- Designed responsive UI sections with an emphasis on usability and consistent visual presentation.

VYRA

Technologies: React, GSAP, HTML, CSS, JavaScript

- Developed a premium fitness and booking frontend using reusable React components.
- Created responsive booking-oriented interface sections and smooth animations to enhance the user journey.
- Emphasized clean layout structure, mobile responsiveness, and interactive UI/UX.

EDUCATION

Master of Computer Applications (MCA) | 2026 - 2028

Bachelor of Computer Applications (BCA) | 2021 - 2024

CERTIFICATIONS

Front End Domination - Sheryians Coding School

Back End Domination - Sheryians Coding School

Data Structures and Algorithms - Code Help
